

TOURNAINE ENGINEER TELLS TALE

Boston, Feb. 26.—Nothing has done so much to arouse the people of Boston as the immense number of people who have been relieved of various diseases by a preparation known as Cooper's New Discovery.

This preparation is being introduced in this city for the first time by L. T. Cooper, the young philanthropist, who has made and is making a fortune by its sale. The medicine is prepared at Dayton, Ohio, and is sold for various forms of stomach trouble. It is now being sold in Boston in such enormous quantities as to cause a general discussion by physicians throughout the city.

Cooper claims that nine-tenths of all the ills of mankind emanate from a disordered stomach, and stated early during his visit that his medicine would overcome all such troubles as kidney and liver complaints simply by restoring the stomach to normal condition.

A reporter who spent an hour at Cooper's headquarters, secured statements from a number of people who had tested this theory. The following story was related by Wm. Short, an engineer employed at the Hotel Touraine, Boston, and living at 5 Hall street, Medford, Mass., and is similar to all the rest. Mr. Short said:

"For a long time I have been troubled with a distressed feeling after eating. Frequently had spells of excessive vomiting. Gas formed on my stomach and I was troubled with heartburn and the usual symptoms that accompany dyspepsia and indigestion. My stomach would bloat and the abdominal area would expand until I was in agony.

"I did not know what was the matter with me, and the doctors were as ignorant regarding my trouble as myself. Nothing I tried gave me the desired relief.

"I was attracted by the accounts of the work of Mr. Cooper, and concluded to try his New Discovery medicine. I experienced almost immediate relief, and since taking several bottles of this preparation I am feeling like my own self again, and life now seems to be worth the living. I will always have a warm spot in my heart for Mr. Cooper and his medicine."

These statements and others like them go far toward accounting for Cooper's immense success here and elsewhere. So far every claim made by the young man seems to have been verified.

COACHING COLORED DELEGATES

WITH STANDARD OIL

WALTER WELLMAN SOUNDS A WARNING AS TO METHODS PURSUED TO GET CONTROL OF THE NEXT REPUBLICAN CONVENTION TO BE HELD IN CHICAGO.

Washington, Feb. 27.—There's a colored man in the wood pile; also Standard Oil for lubricant, states Walter Wellman, the well-known Washington news writer, in a dispatch published today. It is a danger combination. The Brownsville negro regiment is the pretext and Standard Oil is furnishing the funds. At least that is the belief of men who usually know what they are talking about.

For weeks a number of men have been going through the southern states inciting political revolt among the negroes, and among the white Republicans who have been turned down as office holders by the President.

The game is to win delegates, of course, wherever that be possible, and where it is not, to start contests which can be carried to the Chicago convention with a great air of virtues and as much noise as possible about the opposition of Taft.

The result is sure to be a stench in the nostrils of the country. It will be surprising if the Republicans at Chicago next June are not more disgusted with the Southern outfit than they have ever been before, and that is saying a good deal.

A BLOCK BURNS AT 'FRISCO

San Francisco, Feb. 27.—From a roof fire in the Glenmays apartment house, at the southeast corner of O'Farrell and Gough streets last night, there spread flames which for a time threatened the whole block, a district filled with tinder-like lodging houses and the handsome brick church used jointly by the St. Marks German Lutheran Central Methodist Episcopal congregations.

The Glenmays lost its roof, and its entire three floors were gutted. The Imperial Hotel, a Japanese lodging house, was damaged by fire and water, as was the Bryon Maury music store. The total loss, including damage by smoke and water, will foot over \$40,000, only partially covered by insurance.

A half hour's work sufficed to save not only the greater portion of the Glenmays, but also the adjoining wooden buildings in this congested district.

It is supposed that the fire originated in the mansard roof from a chance spark.

Blinded by smoke and hemmed in by flames, 7-year-old Leo Kual, gripping the hand of his 6-year-old sister, Eihel, fought his way through the corridors of the hotel. Both children were asleep in a room on the second floor when the fire started. The noise made by the hundred or more guests in escaping from the hotel awakened them, and they rushed out into the smoke-filled hallway in their night clothes.

William Roebbing, a fire department operator and Walter A. Grant, a salesman, rescued from danger of imminent death three young women lodgers. The women were Miss Molly Scully, who was found unconscious in the middle of a blazing room; Miss Gertrude Gartin and Miss Jennie Ware. The three women had apartments on the third floor. Mrs. Victorson, a lodger on the second floor, had a close call.

BEER PROMOTE TEMPERANCE

Recognized as a Food Product, and So Dealt With by the Government

It is being recognized the world over that the drinking of beer promotes temperance and sobriety to a far greater extent than all the prohibition laws on the statute books.

All enlightened European nations are encouraging the manufacture and consumption of light beers containing about three one-half per cent alcohol, and the result has been most gratifying to all sincere lovers of temperance.

The United States government has taken a positive step in this direction, the war department holding that the re-estabishment of the army canteen for the sale of beer being an absolute necessity in the interest of temperance and sobriety.

Beer is today recognized as a "Food Product," and is so dealt with by the government.

All the great insurance companies have contradicted the theory that have been given currency through prohibition sources. The drinking of beer was a bar to securing insurance, and later published to the world at large the statement that drinking beer moderately (not more than two quarts during twenty-four hours) were the very best of risks. The latest British insurance reports show that the ratio of death rate among moderate drinkers is thirty per cent greater than among moderate drinkers.

Beer is pure and wholesome, and the day is not far distant when it will be as much a part of the daily subsistence of every nation as are milk, bread and other food necessities.

The beer brewed by the Salem Brewery Association is in every sense the very best that modern enterprise can produce. It is for itself and is its own best advertisement.
